

RANGE : **BOREA**MODEL: **BR02**

The bookshelf speaker Borea BR02 is the most compact speaker of the range. It fits easily on a dedicated stand (S02/S04), your bookshelf or most other furniture. A perfect introduction to the world of hi-fi, this small speaker will surprise you by the immersion and sound amplitude it provides.

Equipped with a 25mm EFS silk dome tweeter and a 13cm transducer with a natural cellulose paper membrane, this speaker transposes all the richness of the voices and instruments tones, while maintaining a surprising bass level for its reduced size.

It will fit perfectly in rooms of up to 20m², offering the dynamism and energy emblematic of TRIANGLE. The BR02 can also be used as an effect channel (Surround or Atmos) in home theater setups.

BOREA BR02**TECHNICAL SPECIFICATIONS**

Type	Bookshelf speaker
Ways	2
Sensitivity (dB/W/m)	89
Bandwidth (+/-3dB Hz-KHz)	51-22
Power Handling (W Rms)	80
Minimum Impedance (ohms)	3,6
Cabinets Dimensions WxDxH («)	6,9 x 10,8 x 12,2
Packaging Dimensions	13,1 17,9 x 14,6
Net Weight (Lbs)	11,4
Packaging Weight (Lbs/per pair)	24,7
EAN Code	Black Ash : 3660216005861 White : 3660216005878 Walnut : 3660216005885

RANGE : **BOREA**MODEL: **BR03**

A bookshelf design to be placed on a dedicated stand (S02 or S04), the Borea BR03 is equipped with a 25mm EFS silk dome tweeter and a 16cm midrange/bass driver.

The untreated cellulose paper membrane, developed for the Esprit Ez series, confers a natural sound with no coloration. The vocal range keeps all its intensity and the low frequencies their usual dynamism without ever generating listening fatigue.

This size is especially recommended for dedicated listeners looking for the performance of a floorstander in a compact design. From the very first notes, the BR03 impresses with its energy, delivery of deep notes and power handling. This speaker will fit perfectly in rooms ranging from 15 to 30m².

RANGE : **BOREA**MODEL: **BR07**

The BOREA BR07 floorstander is a clever design, using a two-and-a-half-way configuration. A compact speaker at a reasonable price, it offers great dynamism and excellent performance in the low frequencies.

It incorporates a new 25mm EFS silk dome tweeter; a 16cm midrange/bass driver in natural cellulose paper for a perfect neutral tone of voices and a 16cm bass driver in fiberglass powerfully motorised.

The two 16cm transducers work simultaneously in the same volume load offering an incredible delivery of lower frequencies. Each driver has a different crossover keeping the details and the width of the vocal range. This floorstander will fit perfectly in rooms ranging from 15 to 30m².

RANGE : *BOREA*MODEL: *BR08*

The floorstander BR08, inspired by the iconic Antal speaker, was the reference model throughout the design of the Borea range. Elegant three-way floorstander with 4 transducers, it is one of the most appreciated high-fidelity models.

It incorporates a new 25mm EFS silk dome tweeter; a new 16cm midrange with a brand-new profile, based on the research on the natural cellulose paper used before in the Esprit Ez; and two new 16cm bass drivers in fiberglass.

Its three-way configuration diffuses all frequencies with no interference between the transducers, producing precise voices and instruments.

This floorstander will fit perfectly in rooms ranging from 20 to 40m².

RANGE : **BOREA**

MODEL : **BR09**

The flagship of the range, the Borea BR09 is a floorstander designed in the purest hi-fi tradition. In its 1.1 meters height, it comprises of technology and TRIANGLE know-how.

Its three-way design allocates a transducer to each frequency range for a precise vocal reproduction and depth at low frequency, whilst maintaining a wide soundstage.

The BR09 provides a physical make up similar to that of the most high-end systems. Its three 16cm bass drivers operate in a large "bass-reflex" enclosure, thus enabling the speaker to go down to 35Hz.

Thanks to its delivery of lower frequencies and its high-power handling, this speaker is perfectly suited to larger rooms (more than 30m²).

RANGE : **BOREA**MODEL : **BRC01**

The BRC1 speaker is a center channel designed for home theater setups. Placed in the center of your audio-video system, it is only dedicated to ensuring natural-sounding vocals.

This two-way speaker is equipped with two 13cm midrange/bass transducers with a natural cellulose paper membrane, and with the new 25mm EFS silk dome tweeter.

A key element of the home theater system, the center channel gives intelligibility and intensity to the dialogs. The ports positioned on the front baffle allow you to freely position the BRC1 without creating unwanted reflections.
